WOOD COATINGS EXTERIOR

OUTDOOR WOODEN SURFACES

They require a perfect balance of durability, beauty, and resistance to weathering. At SIVAM Coatings, we design high-performance coatings that combine functional aesthetics with long-lasting protection. From natural finishes to nuanced tones and semi-opaque effects, our range offers unlimited design possibilities without compromising on performance — ideal for diverse outdoor furniture applications.

DECKING

Not only sun and bad weather, even shoes, salt water and sand can attack outdoor flooring. The decking products are specifically developed to provide high durability and resistance to walkable wood in all conditions, even the most critical. They are also designed to be colored in any desired shade and to satisfy the preferences of the end user.

OUTDOOR LUXURY FURNITURE

Our coatings are specifically formulated to meet diverse design needs, without compromising on resistance to UV rays and harsh weather conditions. Easily tintable in nuanced or semi-opaque shades, they not only enhance the visual impact of outdoor elements but also provide an added layer of protection.

DECKING

PRODUCT	CODE	DESCRIPTION	CHARACTERISTICS	APPLICATION	COMPLETE DRY TIME	VERTICAL HOLD	SOLIDS %
TOPCOATS							
LEGNO 3.0	LWW500	Neutral Natural Effect Topcoat	High penetration of wood provides lasting protection and decoration	Brush	48 h	Poor	10 ± 1

KINGFISHER COLOR CLASSIC

The collection offers a range of shades inspired by the finest wood essences, allowing you to obtain elegant and natural finishes that respect and enhance the grain and structure of the wood. Each color is designed to give the wood an authentic and refined appearance, while ensuring protection and durability over time.

KINGFISHER COLOR EVOLUTION

Discover our exclusive color chart, inspired by the elegance of the kingfisher, logo of the SIVAM tinting system. This unique collection offers bold and vibrant shades. Each color is carefully designed to give the wood an authentic and sophisticated look.

KINGFISHER COLOR SYSTEM

The Kingfisher Color System spans the extensive spectrum of colors accessible to the woodworking industry and beyond, efficiently characterizing, formulating, and replicating colors. The harmony between coatings and tools allows for precise and repeatable color results.

KINGFISHER COLOR SURFER

Software designed to contain and simplify the experience for anyone wishing to access SIVAM Coatings color formulas. It is user-friendly and intuitive, enhancing the accessibility and management of numerous formulas.
