ACRYLIC PIGMENTED **PERFORMANCE**

Experience the perfect solution for protecting wood substrates while achieving improved performance and UV resistance, all while preserving the natural beauty of the wood grain. Our state-of-the-art solvent-borne acrylic coatings offer the highest quality and superior performance. Importantly, our 2K Acrylics are formaldehyde-free, promoting a healthier environment. These coatings excel in flexibility, ensuring durability even on unstable surfaces, while remaining easy to use. Prepare for outstanding results with excellent surface hardness and remarkable resistance to moisture and chemicals. Indulge in the delightful soft touch and captivating shimmer they provide, enhancing the overall aesthetic appeal.

PIGMENTED SEALERS

ACYDUR SERIES

Acrylic sealers provide a substantial build, minimizing the requirement for multiple coats in Acrylic finish cycles. These sealers exhibit a water-white clarity and are non-yellowing. They offer excellent transparency, adhesion, and elasticity. With good leveling and sanding properties, they facilitate smooth and even finishes.

PIGMENTED TOPCOATS

ACRYSAT SERIES

Acrylic topcoats provide a natural look and exceptional clarity, ensuring a non-yellowing appearance over time. With excellent hardness and adhesion, they create a durable and long-lasting finish. Offering fast drying properties, reducing waiting times and increasing efficiency. Particularly suitable for open-pore cycles, they can also be utilized as self-sealers.

PIGMENTED GLOSS TOPCOATS

ACRYGLOSS SERIES

High gloss pigmented Acrylic topcoats are designed to provide a glossy finish with exceptional clarity. These topcoats are not yellowing, ensuring long-lasting color fidelity. They offer outstanding surface hardness, adhesion, and filling properties, ensuring a durable and smooth finish. Particularly suitable for Wet Look finish cycles on light-colored surfaces where clarity is crucial.

ACRYLIC PIGMENTED

PRODUCT	CODE	DESCRIPTION	CHARACTERISTICS	MAIN FIELDS OF USE	APPLICATION	DRYING TIME	VERTICAL HOLD	SURFACE SOFTNESS	SCRATCH RESISTANCE	SOLIDS %
ACRYLIC WHITE PRIMERS										
ACRYPRIMER 095	LBR095	Acrylic White Primer	Excellent levelling, sandability, hiding-power and resistance to yellowing. Long pot-life.	Ash-tree, oak, chestnut, maple. Furniture, elements of furniture, kitchens. For open-pore cycles.	Spray	6 - 8 h	Good	/	/	59 ± 1
ACRYLIC WHITE TOPCOATS										
ACRYCHROME 12	LFR12X	Acrylic White Topcoat	Good filling power, good surface hardness, scratch resistance and elasticity. Excellent resistance to yellowing and fast drying.	Furniture, components of furniture, various objects.	Spray	12 h	Excellent	Good	Good	39 ± 1
ACRYCHROME 22	LFR22X	Acrylic White Topcoat	Excellent pore wetting, surface hardness and elasticity, excellent coverage and resistance to yellowing, very fast drying.	Furniture, elements of furniture, doors, various objects. Suitable for open-pore cycles, can be used as a "self-sealer" (multicoat).	Spray	8 h	Good	/	/	52 ± 1
ACRYCHROME 52	LFR52X	Acrylic White Topcoat	Good surface hardness, scratch resistance and elasticity. Excellent resistance to yellowing and fast drying.	Furniture, components of furniture, various objects. It is ideal to realize open-pore cycles.	Spray	12 h	Good	Excellent	Excellent	29 ± 1
ACRYLIC WHITE GLOSSY TOPCOATS										
ACRYCHYWHITE 450	LGR450	Acrylic White Glossy Topcoat	Excellent whiteness and resistance to yellowing. Excellent softness and slip, excellent surface hardness, elasticity, adhesion and fast drying.	Furniture, components of furniture, kitchen doors, various objects.	Spray	12 h	Good	Excellent	Excellent	56 ± 1

KINGFISHER COLOR SYSTEM

The Kingfisher Color System spans the extensive spectrum of colors accessible to the woodworking industry and beyond, efficiently characterizing, formulating, and replicating colors. The harmony between coatings and tools allows for precise and repeatable color results.

KINGFISHER COLOR SURFER

Software designed to contain and simplify the experience for anyone wishing to access SIVAM Coatings color formulas. It is user-friendly and intuitive, enhancing the accessibility and management of numerous formulas.
