POLYURETHANE CLEAR **HERITAGE**

With our legacy in manufacturing 2K Polyurethane coatings renowned for their outstanding performance, SIVAM Coatings offers a wide array of customizable formulations that deliver exceptional versatility. Notably, our 2K Polyurethanes are free from formaldehyde, contributing to a healthier environment. These coatings exhibit remarkable flexibility, ensuring durability even on unstable surfaces. Their high solid content enhances productivity by minimizing product usage and reducing labor and time requirements. Prepare for exceptional results with high surface hardness and resistance to moisture and chemicals. Enjoy the added bonus of a delightful soft touch and a captivating shimmer, elevating the aesthetic appeal.

SEALERS

SIVODUR SERIES

Polyurethane sealers offer a high build, reducing the need for multiple coats. Moreover, they provide exceptional sanding capabilities and exhibit good vertical hang properties. These sealers are especially well-suited for high build or full fill applications, as well as for achieving high gloss finishes.

CLEAR TOPCOATS

SIVOSAT SERIES

Clear topcoats provide a high build and exceptional surface hardness. They exhibit excellent scratch resistance and contribute to effective filling and distension. These topcoats offer fast drying properties, ensuring a smooth touch and surface slip.

CLEAR GLOSS TOPCOATS

SIVOGLOSS SERIES

High gloss Topcoat boasts remarkable flow and brightness, making it effortlessly user-friendly. It exhibits no sinking issues and demonstrates excellent resistance to shrinking. Furthermore, it minimizes the removal of the sealer during application. With impressive softness and surface hardness, it can be polished to achieve a stunning Wet Look finish.
